

CE 250

CASE ERECTOR BOTTOM SEALER

Will erect and bottom seal cases for food products, personal care products, drygoods, chemicals and other industrial applications. Can be configured to dedicated case size (above) or to handle different case sizes randomly without changeover (left).

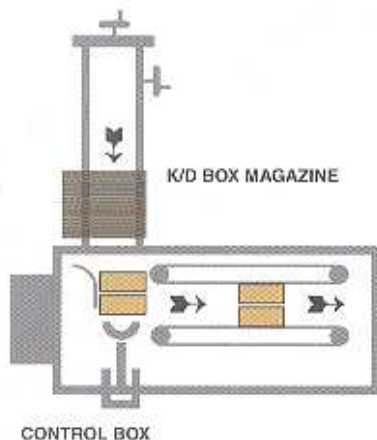

The CE250 is a custom engineered automatic or on demand case erector/bottom sealer. The machine's efficient, space-saving design is tailored to your particular requirements and allows the capabilities of case erecting, bottom flap folding and sealing. Through the use of production tested designs backed by over 30 years of Compacker experience and proven performance, the CE250 provides optimum productivity and cost efficiency.

FEATURES

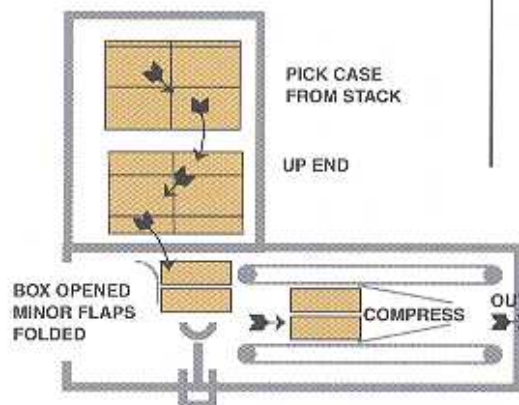

- Fully automatic or on demand controls
- Each machine is custom designed to meet your case size range
